

12th OCTOBER 2021, CSIR-IHBT CONDUCTED DISTRIBUTION OF COMPOST BOOSTER PROGRAMME AT LAHAUL VALLEY

On the occasion of Bharat Amrit Mahotsav, Under the aegis of National Mission on Himalayan Studies; CSIR-Institute of Himalayan Bioresource Technology (CSIR-IHBT), Palampur, Himachal Pradesh **distributed 2275 kg “Compost Booster- a microbial formulation for rapid degradation of night soil”** among the three villages of Lahaul valley in Himachal Pradesh.

The distribution was made to fulfil the increasing demand of the product among the dry toilet users. Earlier on 26 September, 2021; three societies of Lahaul valley signed an agreement for material transfer and consultancy for the product developed at CSIR-IHBT. The distribution programme was conducted by CSIR-IHBT with help from registered societies of Tandi, Ghosal and Mooling Village.

Distribution of compost booster at Ghosal village

Distribution of compost booster at Mooling village

Distribution of compost booster at Tandi village
