

Gantt Chart of Work Plan

Project Title: Identification, assessment and enhancement of soil carbon and nitrogen sequestration potential of different ecosystems in the central Himalayan through a participatory approach

Name of PI & Address: Dr. V.S. Meena, Scientist (Soil Science), ICAR-VPKAS, Almora, Uttarakhand.

S. No.	Activity	1 st Year				2 nd Year				3 rd Year			
		Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4
Objective: I													
1	Survey, site selection												
2	Sample collection												
3	Processing of samples												
4	Soil analysis (W-B OC, TOC, STN, LOC, BD, PD, Soil texture, different land use, land cover, cropping system, CMI)												
Objectives: -II													
5	Crop growth and yield attributes												
6	Input- output relationship,												
7	Field experiment on selected sites, Soil fertility status												
8	Soil nutrient monitoring												
9	Collection of data on crop/plant growth attributes and yield												
Objective - III													
10	Community participatory trainings, in-house training, awareness camps, behavioral changes in community, socioeconomic changes												
11	Front Line Demonstration (FLD)
